

▶ Zone Gateways

CON-ENOC

Description

The CON-ENOC EnOcean® Wireless Zone Gateway uses customized controller firmware to bring EnOcean wireless data into the BACnet® system. EnOcean wireless data is recognized as either inputs, or variables, for maximum system flexibility. The EnOcean Wireless Zone Gateway solution consists of an RS485 gateway and a Delta Controls controller.

Application

The CON-ENOC EnOcean Wireless Zone Gateway is ideal for zone level wireless installations. The Zone Gateway can be added to most Delta controllers and can provide multiple types of sensor data to a zone as well as control a single output device within the zone.

The primary function of this solution is for zone level control including sensors (temperature, setpoint, motion, contacts, etc) and outputs (valves, perimeter heat, lighting, etc.).

Features

▶ EnOcean Devices

Experience wireless flexibility; up to 32 devices are supported on a Delta Controller with the EnOcean Zone Gateway.

▶ EnOcean Enabled Controllers

EnOcean wireless support is added to the eBCON, DAC, and DSC product lines through a firmware upgrade. Existing controllers in the field can be upgraded to add EnOcean support.

▶ Save and Load EnOcean Device Configurations

Once an EnOcean device is configured in the controller, it can be saved and used in other controllers. A configuration can be saved for each type of EnOcean device.

▶ Simple EnOcean Connection

Relevant network information for an EnOcean wireless device is shown in the Delta gateway. This ensures that the correct EnOcean device is joining the network.

Specifications

Antenna

5.9 in. (15 cm) Wire whip (315 MHz)
3.4 in. (8.6 cm) Wire whip (868 MHz)
2.5 in. (6.4 cm) Wire whip (902 MHz)

Enclosure

2 piece snap fit housing with quick peel adhesive mounting pads

Connectors

24 in. (61 cm) Wire whip with stripped and pre-tinned ends

Wiring Class

Class 2 / SELV

Zone Gateway

Specifications (Continued)

Power

24 VAC/DC +/- 10% @ 2 VA

Technology

EnOcean Radio
TCM300 (315 MHz, 868 MHz and 902 MHz)

LED indication of Power, Controller Communication and Wireless Radio Activity

Communications Ports

RS-485
EnOcean ESP3 (EnOcean Serial Protocol) @ 38,400 bps (max of one CON-ENOC per controller)

Ambient

32° to 131°F (0° to 55°C)
10 to 90% RH (non-condensing)

Dimensions

4.1 x 2.2 x 1.1 in.
(10.5 x 5.7 x 2.8 cm) with housing

Weight

0.23 lb. (84 g) with housing

Compliance

CE
FCC
SZV-STM300C
SZV-STM300U
IC
5713A-STM300C
5713A-STM300U

Ordering

Order the EnOcean Wireless Zone Gateway according to the following product numbers:

CON-ENOC-315	Delta Controls EnOcean Zone Gateway, supporting 32 devices, 315 MHz North America
CON-ENOC-868	Delta Controls EnOcean Zone Gateway, supporting 32 devices, 868 MHz Europe
CON-ENOC-902	Delta Controls EnOcean Zone Gateway, supporting 32 devices, 902 MHz North America

Accessories

Accessories are available on Online Orders. Delta Controls represents the following manufacturers of EnOcean wireless products.

- Echoflex
- Thermokon

Subject to change without notice.
